GENERAL INFORMATION

Thank you for your interest in submitting a poster for the North Central Region One Water Action Forum in Indianapolis, Indiana! This unique event is a joint collaboration between the North Central Region Water Network, Soil and Water Conservation Society, Iowa Soybean Association, and US Water Alliance.

This forum will feature the One Water concept, which is defined by the US Water Alliance as “managing water resources in a more integrated, inclusive, and sustainable manner.”

We are requesting posters that focus on **successful partnerships**. We are particularly interested in posters that detail nontraditional, cross-sector partnerships for the benefit of our water resources. An example would be a partnership that brings together rural and urban stakeholders, such as farmers collaborating with a municipal water utility to protect a local water body.

SUBMIT YOUR PROPOSAL: www.onewaternc.org

SUBMISSION DEADLINE: October 12, 2018

If you have questions, please contact events@swcs.org or 515.289.2331

Abstracts should include the following:

- 1) Details about how the successful partnership was formed.
- 2) Information on what your unique partnership accomplished and how it benefited water resources.
- 3) Details on the lessons learned from your partnership and the qualities that made this partnership effective.

The goal of the forum is to share approaches to water protection that can be replicated by other groups. Make sure that you are speaking to a general audience and giving enough details for others to learn and build on your successes.

With the understanding that not all collaborations succeed, we will consider posters that detail lessons learned from unsuccessful partnerships.

Poster presentations must fit on a 4' x 8' poster board. Poster presenters are expected to be at their posters during all refreshment breaks and designated receptions to answer questions and explain experiences and results.

All poster presenters who indicate intent to participate in the North Central Region One Water Action Forum imply agreement to register for the forum at the appropriate fee, attend the forum, and make the presentation in person.

North Central Region Water Network, Soil and Water Conservation Society, Iowa Soybean Association, and US Water Alliance do not reimburse poster presenters for expenses incurred for travel or other expenses related to attending the forum.
